# STAIRCASES, BALUSTRADES & SECONDARY STEELWORK

[www.marshallstairs.com](http://www.marshallstairs.com)

## EXPERTS IN STEEL STAIR DESIGN, FABRICATION AND INSTALLATION

Peter Marshall Steel Stairs is a specialist company principally engaged in the design, fabrication and installation of highly engineered steelwork, staircases and balustrade systems.

Originally founded in 1970, the company has developed its experience and expertise to become the leading fabricator of steel staircases for residential, industrial and commercial applications in the UK. With a national and international customer base, our flexibility means we can deliver wide ranging solutions – from small one-off applications, to multi-site, multi-flight installations.

Our fundamental belief in providing the highest levels of service to our customers, combined with the integrity and professionalism we apply to each project has enabled us to achieve steady and sustained growth and has inspired recognition from world-class companies.

In 2014, we attained the prestigious CE Mark for our product. We are certified to Execution Class 2 (Buildings) and are proud to have achieved compliance for the business.

## Technical Involvement

We work with architects and engineers to offer advice at any stage of a project, using our vast experience to ensure the most beneficial outcome. Our knowledgeable in-house technical team ensures that both architectural vision and structural integrity are achieved with the most efficient solution. Using our considerable expertise in designing for manufacture and installation we can assist in ensuring the optimal design is selected. Examples include, hidden connection details, section size rationalisation, efficient configuration and compliance with building regulations.

## Manufacture

Our innovative technical team utilise 3D modelling packages to provide our manufacturing facility with a visual representation of complex stairs and accurate fabrication information. Our long-serving fabrication workforce has acquired significant knowledge of staircase production and manufacture to the most stringent recognised standards.

## Installation

For the most complex projects, Marshall's maintain specially prepared areas at our facility to enable us to offer a complete trial erection service. This guarantees the perfect fit of all steelwork and ensures there are no delays to on-site programmes. When on-site, Marshall's will deliver in the most demanding conditions, be it location, constrained working hours or restricted plant and access.
